Scanner Evidence & Audit Trail

trivy (SCA)

FINDINGS

Scan Scope: Scanned 4 target(s): npm, dockerfile

Files Analyzed: 4

Rules Checked: 4

Checks Performed:

- Vulnerability scanning
- Misconfiguration detection
- Secret detection
- License compliance

Standards: CVE/NVD, OWASP Top 10 (A06), CIS Benchmarks, NIST SP 800-53

Methodology:

Scans filesystem for package manifests and lock files, matches installed packages against vulnerability databases (NVD, GitHub Advisory, vendor-specific). Also checks for misconfigurations and secrets using built-in rules.

Targets Analyzed:

package-lock.json, Dockerfile, package-lock.json, Loose File License(s)

gitleaks (Secrets)

PASS

Scan Scope: Working directory scanned for 150+ secret patterns with entropy analysis

Configuration: Custom gitleaks.toml

Files Analyzed: 106

Rules Checked: 150

Checks Performed:

- AWS credential detection
- API key detection
- Private key detection
- Generic secret patterns
- High-entropy string analysis
- Token detection

Standards: CWE-798, CWE-259, OWASP Top 10 (A07)

Methodology:

Regex-based pattern matching against 150+ secret patterns with entropy analysis. Scans current file contents and optionally git commit history. Applies allowlists and custom rules to reduce false positives. Secrets are redacted in output.

opengrep (SAST)

FINDINGS

Scan Scope: Multi-language SAST with auto, security-audit, owasp-top-ten, cwe-top-25, r2c-security-audit, and secrets rulesets

Configuration: Custom semgrep-rules.yml + default rulesets

Files Analyzed: 83

Rules Checked: 1

Checks Performed:

- OWASP Top 10 patterns
- Security audit rules
- Secrets detection
- Injection patterns
- XSS patterns
- Insecure crypto usage

Standards: OWASP Top 10, CWE Top 25, SANS Top 25

Methodology:

Pattern-based static analysis using Semgrep rule engine with auto, security-audit, owasp-top-ten, and secrets rulesets. Matches AST patterns against known vulnerability signatures.

checkov (IaC)

PASS

Scan Scope: IaC security analysis — 0 files, 0 checks (0 passed, 0 failed), frameworks: auto-detected

Configuration: Custom .checkov.yaml

Files Analyzed: 7

Checks Performed:

- Terraform misconfigurations
- CloudFormation template issues
- Kubernetes manifest hardening
- Dockerfile best practices
- Helm chart security
- GitHub Actions security
- GitLab CI security
- Secrets in IaC files

Standards: CIS Benchmarks, NIST SP 800-53, SOC 2, PCI-DSS, HIPAA

Methodology:

Graph-based static analysis of infrastructure-as-code files. Parses IaC definitions, builds resource graphs, and checks 1000+ built-in policies covering security, networking, encryption, and compliance.

grype (SCA)

FINDINGS

Scan Scope: SCA analysis: 7 unique CVEs across 6 vulnerable packages (filesystem)

Configuration: Grype with --by-cve deduplication and --add-cpes-if-none

Files Analyzed: 6

Rules Checked: 7

Checks Performed:

- CVE vulnerability matching
- Dependency version analysis
- CPE-based matching
- Advisory cross-referencing
- Fix availability detection

Standards: CVE/NVD, OWASP Top 10 (A06), GHSA

Methodology:

Generates SBOM using Syft, then matches all identified packages against vulnerability databases (NVD, GitHub Advisories, OS vendor databases). Reports CVEs with severity, fix versions, and references.

syft (SBOM)

FINDINGS

Scan Scope: SBOM of 685 packages across 1 language(s): javascript

Configuration: Syft with JSON + CycloneDX output for SBOM standards compliance

Files Analyzed: 685
Rules Checked: 4
Checks Performed:

- SBOM generation (Syft JSON + CycloneDX)
- License compliance analysis
- Copyleft license detection (AGPL, GPL, MPL)
- Weak copyleft classification (LGPL)
- Unknown license flagging
- Package URL (PURL) generation
- CPE generation

Standards: NTIA SBOM Minimum Elements, CycloneDX, SPDX, Executive Order 14028

Methodology:
Catalogs software packages by parsing package manifests, lock files, and installed package databases. Generates standardized SBOM in CycloneDX or SPDX format for supply chain visibility.

package-validator (AI Code Quality)

PASS

Scan Scope: Validated 50 packages across 1 dependency file(s)
Configuration: Concurrency: 10, Timeout: 5000ms per request
Files Analyzed: 1
Rules Checked: 1
Checks Performed:

- npm registry existence validation
- PyPI registry existence validation
- Go module proxy existence validation
- Slopsquatting risk detection
- Hallucinated dependency identification

Standards: CWE-829, OWASP A08:2021, SLSA Supply Chain Security

Methodology:
Parses dependency manifests and validates each package exists in its respective registry (npm, PyPI, Go proxy) via HTTP HEAD requests. Non-existent packages are flagged as hallucinated — a common AI code generation artifact that creates supply chain attack vectors.

oxlint (Code Quality)

FINDINGS

Scan Scope: JS/TS source files
Files Analyzed: 86
Checks Performed:

- JavaScript/TypeScript linting
- Code correctness checks
- Performance anti-patterns
- Suspicious code detection

Standards: CWE, ESLint Core Rules

Methodology:
Rust-based linter that performs AST analysis of JS/TS files at high speed. Detects correctness issues, suspicious patterns, and performance anti-patterns.

ruff (Code Quality)

N/A

Scan Scope: Python source files (.py)
Files Analyzed: 86
Checks Performed:

- Pyflakes error detection
- Pycodestyle violations
- flake8-bandit security checks
- isort import ordering

- pep8-naming
- pyupgrade modernization
- flake8-bugbear

Standards: PEP 8, PEP 257, CWE, OWASP Top 10

Methodology:

Rust-based Python linter implementing 800+ rules from flake8, pylint, isort, and others. 10-100x faster than traditional Python linters.

actionlint (CI/CD Security)

PASS

Scan Scope: .github/workflows/*.yml files

Files Analyzed: 6

Checks Performed:

- Workflow syntax validation
- Action version pinning checks
- Shell script validation
- Expression type checking
- Permissions analysis

Standards: GitHub Actions Security Best Practices, CWE-78

Methodology:

Static analysis of GitHub Actions workflow files. Validates syntax, checks for unpinned action versions, analyzes shell scripts for errors, and verifies expression types.

jscpd (Code Quality)

PASS

Scan Scope: All source files across supported languages

Files Analyzed: 86

Checks Performed:

- Cross-file duplicate detection
- Code clone identification
- Duplication percentage calculation

Standards: ISO/IEC 25010 (Maintainability)

Methodology:

Token-based analysis to detect copy-pasted code blocks across files and languages. Reports duplication percentage and identifies specific cloned regions.

MEDIUM	GHSA-frvp-7c67-39w9: Vulnerability in @hono/node-serv... Node.js Adapter for Hono: Path traversal in `serve-static` on Windows via encoded backslash (`%5C`)	/package-lock.json	GHSA-frvp-7c67-39w9
Package: @hono/node-server Version: 1.19.11 Type: npm Language: javascript Fix: Update @hono/node-server to version 2.0.5 OWASP: A06:2021-Vulnerable and Outdated Components			
MEDIUM	CVE-2026-48988: Vulnerability in markdown-it@14.1.1 markdown-it: Quadratic complexity DoS in smartquotes rule via replaceAt string operations	/package-lock.json	CVE-2026-48988
Package: markdown-it Version: 14.1.1 Type: npm Language: javascript Fix: Update markdown-it to version 14.2.0 OWASP: A06:2021-Vulnerable and Outdated Components			
MEDIUM	CVE-2026-8723: Vulnerability in qs@6.15.0 qs has a remotely triggerable DoS: qs.stringify crashes with TypeError on null/undefined entries in comma-format arrays when encodeValuesOnly is set	/package-lock.json	CVE-2026-8723
Package: qs Version: 6.15.0 Type: npm Language: javascript Fix: Update qs to version 6.15.2 OWASP: A06:2021-Vulnerable and Outdated Components			
MEDIUM	CVE-2026-39406: Vulnerability in @hono/node-server@1.... @hono/node-server: Middleware bypass via repeated slashes in serveStatic	/package-lock.json	CVE-2026-39406
Package: @hono/node-server Version: 1.19.11 Type: npm Language: javascript Fix: Update @hono/node-server to version 1.19.13 OWASP: A06:2021-Vulnerable and Outdated Components			
MEDIUM	CVE-2026-42338: Vulnerability in ip-address@10.1.0 ip-address has XSS in Address6 HTML-emitting methods	/package-lock.json	CVE-2026-42338

Package: ip-address
Version: 10.1.0
Type: npm
Language: javascript

Fix: Update ip-address to version 10.1.1
OWASP: A06:2021-Vulnerable and Outdated Components

LOW CVE-2026-49356: Vulnerability in @babel/core@7.29.0 /package-lock.json CVE-2026-49356
@babel/core: Arbitrary File Read via sourceMappingURL Comment

Package: @babel/core
Version: 7.29.0
Type: npm
Language: javascript

Fix: Update @babel/core to version 7.29.6
OWASP: A06:2021-Vulnerable and Outdated Components

LOW CVE-2026-12590: Vulnerability in body-parser@2.2.2 /package-lock.json CVE-2026-12590
body-parser vulnerable to denial of service when invalid limit value silently disables size enforcement

Package: body-parser
Version: 2.2.2
Type: npm
Language: javascript

Fix: Update body-parser to version 2.3.0
OWASP: A06:2021-Vulnerable and Outdated Components

MEDIUM CVE-2026-39406: @hono/node-server: Middleware bypass ... package-lock.json CVE-2026-39406
@hono/node-server allows running the Hono application on Node.js. Prior to 1.19.13, a path handling inconsistency in serveStatic allows protected static files to be accessed by using repeated slashes (//) in the request path. When route-based middleware (e.g., /admin/*) is used for authorization, the router may not match paths containing repeated slashes, while serveStatic resolves them as normalized paths. This can lead to a middleware ...

Package tough-cookie uses license BSD-3-Clause (category: notice). Review for compliance with your organization's license policy.

Package: tough-cookie
License: BSD-3-Clause
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package tough-cookie uses license BSD-3-Clause (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in toidentifier package-lock.json LICENSE-MIT
Package toidentifier uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: toidentifier
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package toidentifier uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in to-regexp-range package-lock.json LICENSE-MIT
Package to-regexp-range uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: to-regexp-range
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package to-regexp-range uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in tldts-core package-lock.json LICENSE-MIT
Package tldts-core uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: tldts-core
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package tldts-core uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in tldts package-lock.json LICENSE-MIT
Package tldts uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: tldts
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package tldts uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in tinyexec package-lock.json LICENSE-MIT
Package tinyexec uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: tinyexec
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package tinyexec uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in tiny-invariant package-lock.json LICENSE-MIT
Package tiny-invariant uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: tiny-invariant
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package tiny-invariant uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in tagged-tag package-lock.json LICENSE-MIT
Package tagged-tag uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: tagged-tag
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package tagged-tag uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in tabbable package-lock.json LICENSE-MIT
Package tabbable uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: tabbable
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package tabbable uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in styled-jsx package-lock.json LICENSE-MIT
Package styled-jsx uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: styled-jsx
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package styled-jsx uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in style-to-object package-lock.json LICENSE-MIT
Package style-to-object uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: style-to-object
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package style-to-object uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in style-to-js package-lock.json LICENSE-MIT
Package style-to-js uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: style-to-js
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package style-to-js uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in strip-final-newline package-lock.json LICENSE-MIT
Package strip-final-newline uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: strip-final-newline
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package strip-final-newline uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in strip-bom package-lock.json LICENSE-MIT
Package strip-bom uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: strip-bom
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package strip-bom uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in strip-ansi package-lock.json LICENSE-MIT
Package strip-ansi uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: strip-ansi
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package strip-ansi uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: BSD-2-Clause in stringify-object package-lock.json LICENSE-BSD-2-Clause
Package stringify-object uses license BSD-2-Clause (category: notice). Review for compliance with your organization's license policy.

Package: stringify-object
License: BSD-2-Clause
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package stringify-object uses license BSD-2-Clause (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in stringify-entities package-lock.json LICENSE-MIT
Package stringify-entities uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: stringify-entities
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package stringify-entities uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in string-width package-lock.json LICENSE-MIT
Package string-width uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: string-width
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package string-width uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in strict-event-emitter package-lock.json LICENSE-MIT
Package strict-event-emitter uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: strict-event-emitter
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package strict-event-emitter uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in stdin-discarder package-lock.json LICENSE-MIT
Package stdin-discarder uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: stdin-discarder
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package stdin-discarder uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in std-env package-lock.json LICENSE-MIT
Package std-env uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: std-env
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package std-env uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in statuses package-lock.json LICENSE-MIT
Package statuses uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: statuses
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package statuses uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in sqlstring package-lock.json LICENSE-MIT
Package sqlstring uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: sqlstring
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package sqlstring uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: ISC in split2 package-lock.json LICENSE-ISC
Package split2 uses license ISC (category: notice). Review for compliance with your organization's license policy.

Package: split2
License: ISC
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package split2 uses license ISC (category: notice). Review for compliance with your organization's license policy.

License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package run-applescript uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in router package-lock.json LICENSE-MIT
Package router uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: router
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package router uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in rope-sequence package-lock.json LICENSE-MIT
Package rope-sequence uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: rope-sequence
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package rope-sequence uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in reusify package-lock.json LICENSE-MIT
Package reusify uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: reusify
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package reusify uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in rettime package-lock.json LICENSE-MIT
Package rettime uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: rettime
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package rettime uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in retry package-lock.json LICENSE-MIT
Package retry uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: retry
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package retry uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in restore-cursor package-lock.json LICENSE-MIT
Package restore-cursor uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: restore-cursor
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package restore-cursor uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in resolve-from package-lock.json LICENSE-MIT
Package resolve-from uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: resolve-from
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package resolve-from uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in reselect package-lock.json LICENSE-MIT
Package reselect uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: reselect
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package reselect uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in require-from-string package-lock.json LICENSE-MIT
Package require-from-string uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: require-from-string
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package require-from-string uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in require-directory package-lock.json LICENSE-MIT
Package require-directory uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: require-directory
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package require-directory uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in remeda package-lock.json LICENSE-MIT
Package remeda uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: remeda
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package remeda uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in remark-stringify package-lock.json LICENSE-MIT
Package remark-stringify uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: remark-stringify
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package remark-stringify uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in recast package-lock.json LICENSE-MIT
Package recast uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: recast
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package recast uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in readdirp package-lock.json LICENSE-MIT
Package readdirp uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: readdirp
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package readdirp uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in rc9 package-lock.json LICENSE-MIT
Package rc9 uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: rc9
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package rc9 uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in raw-body package-lock.json LICENSE-MIT
Package raw-body uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: raw-body
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package raw-body uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in range-parser package-lock.json LICENSE-MIT
Package range-parser uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: range-parser
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package range-parser uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in queue-microtask package-lock.json LICENSE-MIT
Package queue-microtask uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: queue-microtask
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package queue-microtask uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: BSD-3-Clause in qs package-lock.json LICENSE-BSD-3-Clause
Package qs uses license BSD-3-Clause (category: notice). Review for compliance with your organization's license policy.

Package: qs
License: BSD-3-Clause
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package qs uses license BSD-3-Clause (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in pure-rand package-lock.json LICENSE-MIT
Package pure-rand uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: pure-rand
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package pure-rand uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in punycode.js package-lock.json LICENSE-MIT
Package punycode.js uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: punycode.js
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package punycode.js uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in proxy-addr package-lock.json LICENSE-MIT
Package proxy-addr uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: proxy-addr
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package proxy-addr uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in prosemirror-view package-lock.json LICENSE-MIT
Package prosemirror-view uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: prosemirror-view
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package prosemirror-view uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in prosemirror-transform package-lock.json LICENSE-MIT
Package prosemirror-transform uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: prosemirror-transform
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package prosemirror-transform uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in prosemirror-trailing-node package-lock.json LICENSE-MIT
Package prosemirror-trailing-node uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: prosemirror-trailing-node
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package prosemirror-trailing-node uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in prosemirror-tables package-lock.json LICENSE-MIT
Package prosemirror-tables uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: prosemirror-tables
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package prosemirror-tables uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in prosemirror-state package-lock.json LICENSE-MIT
Package prosemirror-state uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: prosemirror-state
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package prosemirror-state uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in prosemirror-schema-list package-lock.json LICENSE-MIT
Package prosemirror-schema-list uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: prosemirror-schema-list
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package prosemirror-schema-list uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in prosemirror-schema-basic package-lock.json LICENSE-MIT
Package prosemirror-schema-basic uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: prosemirror-schema-basic
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package prosemirror-schema-basic uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in prosemirror-model package-lock.json LICENSE-MIT
Package prosemirror-model uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: prosemirror-model
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package prosemirror-model uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in prosemirror-menu package-lock.json LICENSE-MIT
Package prosemirror-menu uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: prosemirror-menu
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package prosemirror-menu uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in prosemirror-markdown package-lock.json LICENSE-MIT
Package prosemirror-markdown uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: prosemirror-markdown
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package prosemirror-markdown uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in prosemirror-keymap package-lock.json LICENSE-MIT
Package prosemirror-keymap uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: prosemirror-keymap
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package prosemirror-keymap uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in prosemirror-inputrules package-lock.json LICENSE-MIT
Package prosemirror-inputrules uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: prosemirror-inputrules
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package prosemirror-inputrules uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in prosemirror-history package-lock.json LICENSE-MIT
Package prosemirror-history uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: prosemirror-history
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package prosemirror-history uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in prosemirror-gapcursor package-lock.json LICENSE-MIT
Package prosemirror-gapcursor uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: prosemirror-gapcursor
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package prosemirror-gapcursor uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package pg-cloudflare uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: pg-cloudflare
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package pg-cloudflare uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in perfect-debounce package-lock.json LICENSE-MIT
Package perfect-debounce uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: perfect-debounce
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package perfect-debounce uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in pathe package-lock.json LICENSE-MIT
Package pathe uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: pathe
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package pathe uses license MIT (category: notice).
Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in path-to-regexp package-lock.json LICENSE-MIT
Package path-to-regexp uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: path-to-regexp
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package path-to-regexp uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in path-key package-lock.json LICENSE-MIT
Package path-key uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: path-key
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package path-key uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in path-browserify package-lock.json LICENSE-MIT
Package path-browserify uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: path-browserify
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package path-browserify uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in parseurl package-lock.json LICENSE-MIT
Package parseurl uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: parseurl
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package parseurl uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in parse-ms package-lock.json LICENSE-MIT
Package parse-ms uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: parse-ms
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package parse-ms uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in parse-json package-lock.json LICENSE-MIT
Package parse-json uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: parse-json
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package parse-json uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in parse-entities package-lock.json LICENSE-MIT
Package parse-entities uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: parse-entities
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package parse-entities uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in parent-module package-lock.json LICENSE-MIT
Package parent-module uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: parent-module
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package parent-module uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in outvariant package-lock.json LICENSE-MIT
Package outvariant uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: outvariant
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package outvariant uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in orderedmap package-lock.json LICENSE-MIT
Package orderedmap uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: orderedmap
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package orderedmap uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW	License Compliance: MIT in ora	package-lock.json	LICENSE-MIT
Package ora uses license MIT (category: notice). Review for compliance with your organization's license policy.			

Package: ora
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package ora uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW	License Compliance: MIT in open	package-lock.json	LICENSE-MIT
Package open uses license MIT (category: notice). Review for compliance with your organization's license policy.			

Package: open
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package open uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW	License Compliance: MIT in onetime	package-lock.json	LICENSE-MIT
Package onetime uses license MIT (category: notice). Review for compliance with your organization's license policy.			

Package: onetime
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package onetime uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW	License Compliance: ISC in once	package-lock.json	LICENSE-ISC
Package once uses license ISC (category: notice). Review for compliance with your organization's license policy.			

Package: once
License: ISC
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package once uses license ISC (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW	License Compliance: MIT in on-finished	package-lock.json	LICENSE-MIT
Package on-finished uses license MIT (category: notice). Review for compliance with your organization's license policy.			

Package: on-finished
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package on-finished uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in ohash package-lock.json LICENSE-MIT
Package ohash uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: ohash
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package ohash uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in object-treeify package-lock.json LICENSE-MIT
Package object-treeify uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: object-treeify
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package object-treeify uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in object-inspect package-lock.json LICENSE-MIT
Package object-inspect uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: object-inspect
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package object-inspect uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in object-assign package-lock.json LICENSE-MIT
Package object-assign uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: object-assign
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package object-assign uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in nypm package-lock.json LICENSE-MIT
Package nypm uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: nypm
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package nypm uses license MIT (category: notice).
Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW	License Compliance: MIT in npm-run-path	package-lock.json	LICENSE-MIT
Package npm-run-path uses license MIT (category: notice). Review for compliance with your organization's license policy.			

Package: npm-run-path
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package npm-run-path uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW	License Compliance: MIT in node-releases	package-lock.json	LICENSE-MIT
Package node-releases uses license MIT (category: notice). Review for compliance with your organization's license policy.			

Package: node-releases
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package node-releases uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW	License Compliance: MIT in node-fetch-native	package-lock.json	LICENSE-MIT
Package node-fetch-native uses license MIT (category: notice). Review for compliance with your organization's license policy.			

Package: node-fetch-native
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package node-fetch-native uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW	License Compliance: MIT in node-fetch	package-lock.json	LICENSE-MIT
Package node-fetch uses license MIT (category: notice). Review for compliance with your organization's license policy.			

Package: node-fetch
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package node-fetch uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW	License Compliance: MIT in node-domexception	package-lock.json	LICENSE-MIT
Package node-domexception uses license MIT (category: notice). Review for compliance with your organization's license policy.			

Package: node-domexception
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package node-domexception uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in negotiator package-lock.json LICENSE-MIT
Package negotiator uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: negotiator
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package negotiator uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in nanoid package-lock.json LICENSE-MIT
Package nanoid uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: nanoid
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package nanoid uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in named-placeholders package-lock.json LICENSE-MIT
Package named-placeholders uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: named-placeholders
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package named-placeholders uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in mysql2 package-lock.json LICENSE-MIT
Package mysql2 uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: mysql2
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package mysql2 uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: ISC in mute-stream package-lock.json LICENSE-ISC
Package mute-stream uses license ISC (category: notice). Review for compliance with your organization's license policy.

Package: mute-stream
License: ISC
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package mute-stream uses license ISC (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in msw package-lock.json LICENSE-MIT
Package msw uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: msw
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package msw uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in ms package-lock.json LICENSE-MIT
Package ms uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: ms
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package ms uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in minimist package-lock.json LICENSE-MIT
Package minimist uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: minimist
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package minimist uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in mimic-function package-lock.json LICENSE-MIT
Package mimic-function uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: mimic-function
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package mimic-function uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in mimic-fn package-lock.json LICENSE-MIT
Package mimic-fn uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: `mimic-fn`
License: `MIT`
Category: `notice`

Fix: Review this finding and apply the appropriate fix based on the description: Package `mimic-fn` uses license `MIT` (category: `notice`). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in `mime-types` `package-lock.json` **LICENSE-MIT**
Package `mime-types` uses license `MIT` (category: `notice`). Review for compliance with your organization's license policy.

Package: `mime-types`
License: `MIT`
Category: `notice`

Fix: Review this finding and apply the appropriate fix based on the description: Package `mime-types` uses license `MIT` (category: `notice`). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in `mime-db` `package-lock.json` **LICENSE-MIT**
Package `mime-db` uses license `MIT` (category: `notice`). Review for compliance with your organization's license policy.

Package: `mime-db`
License: `MIT`
Category: `notice`

Fix: Review this finding and apply the appropriate fix based on the description: Package `mime-db` uses license `MIT` (category: `notice`). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in `micromatch` `package-lock.json` **LICENSE-MIT**
Package `micromatch` uses license `MIT` (category: `notice`). Review for compliance with your organization's license policy.

Package: `micromatch`
License: `MIT`
Category: `notice`

Fix: Review this finding and apply the appropriate fix based on the description: Package `micromatch` uses license `MIT` (category: `notice`). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in `micromark-util-types` `package-lock.json` **LICENSE-MIT**
Package `micromark-util-types` uses license `MIT` (category: `notice`). Review for compliance with your organization's license policy.

Package: `micromark-util-types`
License: `MIT`
Category: `notice`

Fix: Review this finding and apply the appropriate fix based on the description: Package `micromark-util-types` uses license `MIT` (category: `notice`). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in `micromark-util-symbol` `package-lock.json` **LICENSE-MIT**
Package `micromark-util-symbol` uses license `MIT` (category: `notice`). Review for compliance with your organization's license policy.

Package: micromark-util-symbol
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package micromark-util-symbol uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in micromark-util-subtokenize package-lock.json LICENSE-MIT
Package micromark-util-subtokenize uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: micromark-util-subtokenize
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package micromark-util-subtokenize uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in micromark-util-sanitize-uri package-lock.json LICENSE-MIT
Package micromark-util-sanitize-uri uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: micromark-util-sanitize-uri
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package micromark-util-sanitize-uri uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in micromark-util-resolve-all package-lock.json LICENSE-MIT
Package micromark-util-resolve-all uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: micromark-util-resolve-all
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package micromark-util-resolve-all uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in micromark-util-normalize-i... package-lock.json LICENSE-MIT
Package micromark-util-normalize-identifier uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: micromark-util-normalize-identifier
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package micromark-util-normalize-identifier uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in micromark-util-html-tag-name package-lock.json LICENSE-MIT
Package micromark-util-html-tag-name uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: micromark-util-html-tag-name
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package micromark-util-html-tag-name uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in micromark-util-encode package-lock.json LICENSE-MIT
Package micromark-util-encode uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: micromark-util-encode
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package micromark-util-encode uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in micromark-util-decode-string package-lock.json LICENSE-MIT
Package micromark-util-decode-string uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: micromark-util-decode-string
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package micromark-util-decode-string uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in micromark-util-decode-nume... package-lock.json LICENSE-MIT
Package micromark-util-decode-numeric-character-reference uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: micromark-util-decode-numeric-character-reference
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package micromark-util-decode-numeric-character-reference uses license MIT (category: notice). Review for compliance with your organization's license policy.

Fix: Review this finding and apply the appropriate fix based on the description: Package micromark-extension-gfm-table uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in micromark-extension-gfm-st... package-lock.json LICENSE-MIT
Package micromark-extension-gfm-strikethrough uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: micromark-extension-gfm-strikethrough
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package micromark-extension-gfm-strikethrough uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in micromark-extension-gfm-fo... package-lock.json LICENSE-MIT
Package micromark-extension-gfm-footnote uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: micromark-extension-gfm-footnote
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package micromark-extension-gfm-footnote uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in micromark-extension-gfm-au... package-lock.json LICENSE-MIT
Package micromark-extension-gfm-autolink-literal uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: micromark-extension-gfm-autolink-literal
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package micromark-extension-gfm-autolink-literal uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in micromark-extension-gfm package-lock.json LICENSE-MIT
Package micromark-extension-gfm uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: micromark-extension-gfm
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package micromark-extension-gfm uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in micromark-core-commonmark package-lock.json LICENSE-MIT
Package micromark-core-commonmark uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: micromark-core-commonmark
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package micromark-core-commonmark uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in micromark package-lock.json LICENSE-MIT
Package micromark uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: micromark
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package micromark uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in merge2 package-lock.json LICENSE-MIT
Package merge2 uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: merge2
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package merge2 uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in merge-stream package-lock.json LICENSE-MIT
Package merge-stream uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: merge-stream
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package merge-stream uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in merge-descriptors package-lock.json LICENSE-MIT
Package merge-descriptors uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: merge-descriptors
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package merge-descriptors uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in media-typer package-lock.json LICENSE-MIT
Package media-typer uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: media-typer
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package media-typer uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in mdurl package-lock.json LICENSE-MIT
Package mdurl uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: mdurl
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package mdurl uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in mdast-util-to-string package-lock.json LICENSE-MIT
Package mdast-util-to-string uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: mdast-util-to-string
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package mdast-util-to-string uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in mdast-util-to-markdown package-lock.json LICENSE-MIT
Package mdast-util-to-markdown uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: mdast-util-to-markdown
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package mdast-util-to-markdown uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in mdast-util-to-hast package-lock.json LICENSE-MIT
Package mdast-util-to-hast uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: mdast-util-to-hast
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package mdast-util-to-hast uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in mdast-util-phrasing package-lock.json LICENSE-MIT
Package mdast-util-phrasing uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: mdast-util-phrasing
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package mdast-util-phrasing uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in mdast-util-mdxjs-esm package-lock.json LICENSE-MIT
Package mdast-util-mdxjs-esm uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: mdast-util-mdxjs-esm
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package mdast-util-mdxjs-esm uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in mdast-util-mdx-jsx package-lock.json LICENSE-MIT
Package mdast-util-mdx-jsx uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: mdast-util-mdx-jsx
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package mdast-util-mdx-jsx uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in mdast-util-mdx-expression package-lock.json LICENSE-MIT
Package mdast-util-mdx-expression uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: mdast-util-mdx-expression
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package mdast-util-mdx-expression uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in mdast-util-gfm-task-list-item package-lock.json LICENSE-MIT
Package mdast-util-gfm-task-list-item uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: mdast-util-gfm-task-list-item
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package mdast-util-gfm-task-list-item uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in mdast-util-gfm-table package-lock.json LICENSE-MIT
Package mdast-util-gfm-table uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: mdast-util-gfm-table
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package mdast-util-gfm-table uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in mdast-util-gfm-strikethrough package-lock.json LICENSE-MIT
Package mdast-util-gfm-strikethrough uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: mdast-util-gfm-strikethrough
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package mdast-util-gfm-strikethrough uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in mdast-util-gfm-footnote package-lock.json LICENSE-MIT
Package mdast-util-gfm-footnote uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: mdast-util-gfm-footnote
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package mdast-util-gfm-footnote uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in mdast-util-gfm-autolink-li... package-lock.json LICENSE-MIT
Package mdast-util-gfm-autolink-literal uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: mdast-util-gfm-autolink-literal
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package mdast-util-gfm-autolink-literal uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in mdast-util-gfm package-lock.json LICENSE-MIT
Package mdast-util-gfm uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: mdast-util-gfm
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package mdast-util-gfm uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in mdast-util-from-markdown package-lock.json LICENSE-MIT
Package mdast-util-from-markdown uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: mdast-util-from-markdown
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package mdast-util-from-markdown uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in mdast-util-find-and-replace package-lock.json LICENSE-MIT
Package mdast-util-find-and-replace uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: mdast-util-find-and-replace
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package mdast-util-find-and-replace uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in math-intrinsics package-lock.json LICENSE-MIT
Package math-intrinsics uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: math-intrinsics
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package math-intrinsics uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in markdown-table package-lock.json LICENSE-MIT
Package markdown-table uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: markdown-table
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package markdown-table uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in markdown-it package-lock.json LICENSE-MIT
Package markdown-it uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: markdown-it
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package markdown-it uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in lru.min package-lock.json LICENSE-MIT
Package lru.min uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: lru.min
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package lru.min uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: ISC in lru-cache package-lock.json LICENSE-ISC
Package lru-cache uses license ISC (category: notice). Review for compliance with your organization's license policy.

Package: lru-cache
License: ISC
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package lru-cache uses license ISC (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in longest-streak package-lock.json LICENSE-MIT
Package longest-streak uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: longest-streak
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package longest-streak uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: Apache-2.0 in long package-lock.json LICENSE-Apache-2.0
Package long uses license Apache-2.0 (category: notice). Review for compliance with your organization's license policy.

Package: long
License: Apache-2.0
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package long uses license Apache-2.0 (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in log-symbols package-lock.json LICENSE-MIT
Package log-symbols uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: log-symbols
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package log-symbols uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in linkifyjs package-lock.json LICENSE-MIT
Package linkifyjs uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: linkifyjs
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package linkifyjs uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in linkify-it package-lock.json LICENSE-MIT
Package linkify-it uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: linkify-it
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package linkify-it uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in lines-and-columns package-lock.json LICENSE-MIT
Package lines-and-columns uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: lines-and-columns
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package lines-and-columns uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in kleur package-lock.json LICENSE-MIT
Package kleur uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: kleur
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package kleur uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in jsonfile package-lock.json LICENSE-MIT
Package jsonfile uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: jsonfile
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package jsonfile uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in json5 package-lock.json LICENSE-MIT
Package json5 uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: json5
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package json5 uses license MIT (category: notice).
Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: BSD-2-Clause in json-schema-typed package-lock.json LICENSE-BSD-2-Clause
Package json-schema-typed uses license BSD-2-Clause (category: notice). Review for compliance with your organization's license policy.

Package: json-schema-typed
License: BSD-2-Clause
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package json-schema-typed uses license BSD-2-Clause (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in json-schema-traverse package-lock.json LICENSE-MIT
Package json-schema-traverse uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: json-schema-traverse
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package json-schema-traverse uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in json-parse-even-better-errors package-lock.json LICENSE-MIT
Package json-parse-even-better-errors uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: json-parse-even-better-errors
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package json-parse-even-better-errors uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in jsesc package-lock.json LICENSE-MIT
Package jsesc uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: jsesc
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package jsesc uses license MIT (category: notice).
Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in js-yaml package-lock.json LICENSE-MIT
Package js-yaml uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: js-yaml
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package js-yaml uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in js-tokens package-lock.json LICENSE-MIT
Package js-tokens uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: js-tokens
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package js-tokens uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in jose package-lock.json LICENSE-MIT
Package jose uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: jose
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package jose uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in jiti package-lock.json LICENSE-MIT
Package jiti uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: jiti
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package jiti uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: ISC in isexe package-lock.json LICENSE-ISC
Package isexe uses license ISC (category: notice). Review for compliance with your organization's license policy.

Package: isexe
License: ISC
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package isexe uses license ISC (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-wsl package-lock.json LICENSE-MIT
Package is-wsl uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-wsl
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-wsl uses license MIT (category: notice).
Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-unicode-supported package-lock.json LICENSE-MIT
Package is-unicode-supported uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-unicode-supported
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-unicode-supported uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-stream package-lock.json LICENSE-MIT
Package is-stream uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-stream
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-stream uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-regexp package-lock.json LICENSE-MIT
Package is-regexp uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-regexp
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-regexp uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-property package-lock.json LICENSE-MIT
Package is-property uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-property
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-property uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-promise package-lock.json LICENSE-MIT
Package is-promise uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-promise
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-promise uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-plain-obj package-lock.json LICENSE-MIT
Package is-plain-obj uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-plain-obj
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-plain-obj uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-obj package-lock.json LICENSE-MIT
Package is-obj uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-obj
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-obj uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-number package-lock.json LICENSE-MIT
Package is-number uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-number
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-number uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-node-process package-lock.json LICENSE-MIT
Package is-node-process uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-node-process
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-node-process uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-interactive package-lock.json LICENSE-MIT
Package is-interactive uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-interactive
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-interactive uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-inside-container package-lock.json LICENSE-MIT
Package is-inside-container uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-inside-container
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-inside-container uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-in-ssh package-lock.json LICENSE-MIT
Package is-in-ssh uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-in-ssh
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-in-ssh uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-hexadecimal package-lock.json LICENSE-MIT
Package is-hexadecimal uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-hexadecimal
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-hexadecimal uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-glob package-lock.json LICENSE-MIT
Package is-glob uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-glob
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-glob uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-fullwidth-code-point package-lock.json LICENSE-MIT
Package is-fullwidth-code-point uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-fullwidth-code-point
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-fullwidth-code-point uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-extglob package-lock.json LICENSE-MIT
Package is-extglob uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-extglob
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-extglob uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-docker package-lock.json LICENSE-MIT
Package is-docker uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-docker
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-docker uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-decimal package-lock.json LICENSE-MIT
Package is-decimal uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-decimal
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-decimal uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-arrayish package-lock.json LICENSE-MIT
Package is-arrayish uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-arrayish
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-arrayish uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-alphanumerical package-lock.json LICENSE-MIT
Package is-alphanumerical uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-alphanumeric
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-alphanumeric uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in is-alphabetical package-lock.json LICENSE-MIT
Package is-alphabetical uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: is-alphabetical
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package is-alphabetical uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in ipaddr.js package-lock.json LICENSE-MIT
Package ipaddr.js uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: ipaddr.js
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package ipaddr.js uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in ip-address package-lock.json LICENSE-MIT
Package ip-address uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: ip-address
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package ip-address uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in inline-style-parser package-lock.json LICENSE-MIT
Package inline-style-parser uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: inline-style-parser
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package inline-style-parser uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: ISC in inherits package-lock.json LICENSE-ISC
Package inherits uses license ISC (category: notice). Review for compliance with your organization's license policy.

Package: inherits
License: ISC
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package inherits uses license ISC (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in import-fresh package-lock.json LICENSE-MIT
Package import-fresh uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: import-fresh
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package import-fresh uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in ignore package-lock.json LICENSE-MIT
Package ignore uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: ignore
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package ignore uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in iconv-lite package-lock.json LICENSE-MIT
Package iconv-lite uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: iconv-lite
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package iconv-lite uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: Apache-2.0 in human-signals package-lock.json LICENSE-Apache-2.0
Package human-signals uses license Apache-2.0 (category: notice). Review for compliance with your organization's license policy.

Package: human-signals
License: Apache-2.0
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package human-signals uses license Apache-2.0 (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in https-proxy-agent package-lock.json LICENSE-MIT
Package https-proxy-agent uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: https-proxy-agent
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package https-proxy-agent uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in http-status-codes package-lock.json LICENSE-MIT
Package http-status-codes uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: http-status-codes
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package http-status-codes uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in http-errors package-lock.json LICENSE-MIT
Package http-errors uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: http-errors
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package http-errors uses license MIT (category: notice). Review for compliance with your organization's license policy.

OWASP: A06:2021-Vulnerable and Outdated Components

LOW License Compliance: MIT in html-void-elements package-lock.json LICENSE-MIT
Package html-void-elements uses license MIT (category: notice). Review for compliance with your organization's license policy.

Package: html-void-elements
License: MIT
Category: notice

Fix: Review this finding and apply the appropriate fix based on the description: Package html-void-elements uses license MIT (category: notice). Review for compliance with your organization's license policy.

LOW No HEALTHCHECK defined Dockerfile DS-0026
You should add HEALTHCHECK instruction in your docker container images to perform the health check on running containers.

Fix: Add HEALTHCHECK instruction in Dockerfile

OWASP: A05:2021-Security Misconfiguration

LOW CVE-2026-12590: body-parser: body-parser: Denial of S... package-lock.json CVE-2026-12590
Impact: In body-parser versions prior to 1.20.6 (1.x line) and 2.3.0 (2.x line), when the parser is configured with an invalid limit option value such as an unparseable string or NaN, bytes.parse returns null and the request body size check is silently skipped. Applications that rely on limit as their primary safeguard against oversized request bodies will accept arbitrarily large payloads, leading to excessive memory and CPU usage and denial of ...

Package: body-parser
Installed: 2.2.2
Fixed: 1.20.6, 2.3.0

Fix: Update body-parser to version 1.20.6, 2.3.0

OWASP: A06:2021-Vulnerable and Outdated Components

LOW CVE-2026-49356: @babel/core: @babel/core: Arbitrary f... package-lock.json CVE-2026-49356
Babel is a compiler for writing next generation JavaScript. Prior to 8.0.0-rc.6 and 7.29.6, @babel/core affected by an arbitrary file read via a sourceMappingURL comment. Using @babel/core to compile maliciously crafted code can allow an attacker to read any source map from the system that is running Babel, if the attacker controls the input source code, can read the output source code, and knows the path of the source map file that ...

Package: @babel/core
Installed: 7.29.0
Fixed: 8.0.0-rc.6, 7.29.6

Fix: Update @babel/core to version 8.0.0-rc.6, 7.29.6

Codebase Coverage (106 files analyzed)

This scan analyzed 106 files using 10 security tools across 8 testing categories. Each scanner targets files relevant to its analysis domain (e.g., SAST scanners analyze source code, SCA scanners analyze dependency manifests).

Files by Language:

JavaScript/TypeScript: 86 files

Config: 6 files

Markdown: 3 files

Docker: 1 files

Files by Extension:

.tsx: 46	.ts: 37	.json: 4
.mjs: 3	.md: 3	.other: 2
.yaml: 1	.dockerfile: 1	.dockerignore: 1
.gitignore: 1	.mts: 1	.gitkeep: 1
.toml: 1	.sql: 1	.prisma: 1
.ico: 1	.css: 1
